Kotnikova 5

You are cordially invited to the opening of the group exhibition at the Gallery LUX Ljubljana on 18th November 2009 at 7 pm. The exhibition continues until 29th January 2010.

Exhibitors: Daniela Danica Tepeš, Adrian Golobič

The exhibition reflects the state of today's consumer society, which is also reflected in art. Today, one of the major challenges is that we often feel unspoiled by globalization and consumption. Capital leads us through regulation, control of the means of production and life, and the constant domination of the capitalist World.
